Standard Planter Options

Note that not all options are available for all products; we also have capabilities beyond the listed options. For something off-menu, speak to a Tournesol Advisor.

Irrigation Systems

Tournesol's container irrigation systems are the best in the business, can fit any of our planters to reduce watering frequency..

Change in Dimension, Angled Length Modification

Don't see the size you're looking for? Many of our planters can be ordered with a change in one dimension as a standard option.

Accessory Pockets

Accommodate lighting, audio, power, and data. View our Fixture Compatibility Chart to use a Standard Accessory Pocket. Custom Accessory Pockets are available for fixtures not appearing on the compatibility chart.

Scoops

Square and rectangular planters can be connected end-to-end to create linear runs. "Scoops" lower adjacent planter walls, allowing them to hide beneath the soil surface, creating a continuous planting along the top.

Casters

Recessed casters discreetly provide mobility and are available for many of our planter collections. Planters receiving casters are built with reinforced raised bottoms, so that casters hide under skirted planter walls.

TourneSeal

Need it watertight? Specify TourneSeal, our waterproofing solution. This is highly recommended for planters that will not have drain holes.

Tie Downs

Tie Downs are available to hold trees in place. These are available for planters in all our materials. Ties are added inside planters at the midpoint and are evenly distributed to keep the tree centered.

Lift Channels

Moving large planters on the job site can be challenging. By adding lift channels, you can safely and quickly move planters on site. We have two configurations for lift channels: pallet jack or forklift.

Toe Kick

Planters with toe kicks (reveals) are available in several standard sizes. In addition, some products may be configured to add a toe kick, such as Wilshire Planters in Steel.

Matching Saucer

Capture runoff from drain holes to prevent surface staining. Available in GFRC and FRP with matching finishes. See page 66 for more information.

False Bottom

Reduce soil volume and weight in planters by adding false bottoms. The false bottom option provides a soil depth of 18". If other soil depths are needed, we can customize false bottoms to fit your project.

Drain Holes

Standard GFRC and Steel planters come with drain holes, but FRP planters come without. All our pots and planters are available with or without drainage holes, simply specify your choice.

Bottom Reinforcement

When specifying FRP planters that won't have full basal support after installation, or planters that will be anchored to the underlying surface, bottom reinforcement is recommended.

Anchor Plate

Anchor plates are available for select planter applications. Speak to a Tournesol Advisor about specifying this option for your project.

Custom Color

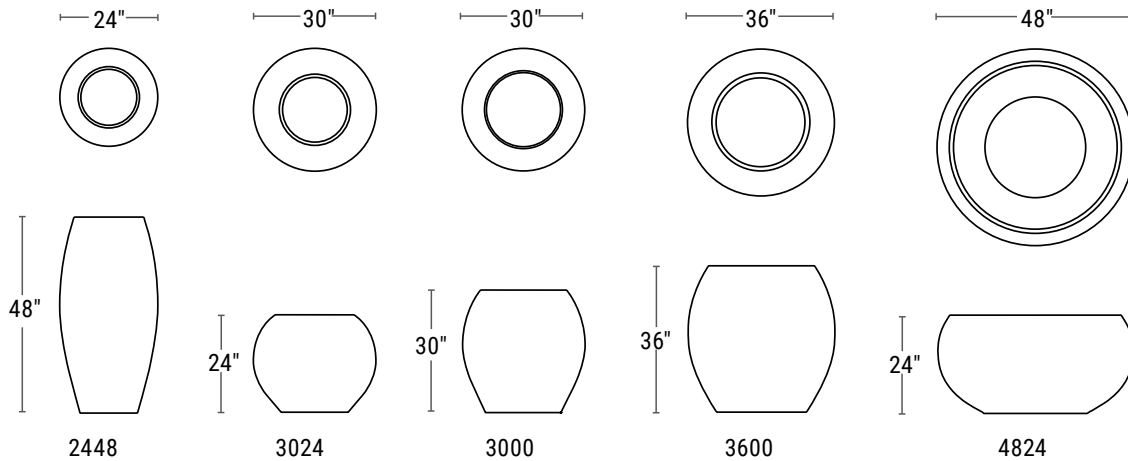

Tournesol offers a broad range of standard colors for GFRC, FRP, and Powder-coat, but we also offer custom colors depending on product and volume. Contact a Tournesol Advisor to discuss your custom color needs.

Standard Planter Options

Our standard options can be added to many of our products to meet project needs. Note that we have capabilities beyond the options listed and can create products to meet your exact specifications. For something off-menu, speak to a Tournesol Advisor.

PART NO.	DESCRIPTION	PRICE, EA
SCP	Scoop configuration in planter sidewall (per instance)	290.00
SCP-K_	Scoop planter connection kit - sizes 18", 24", 36", 48"	30.00
SCP-K__S	Scoop Connection Kit for steel planters - sizes 18", 24", 36", 48"	30.00
DHC	Standard 1-5/8" Drain Hole Configurations - no charge	0.00
DHCC	Custom Drain Hole Configurations	\$40.00/hole
CAST-S	Caster modification for planters up to 36" or 48"L rectangles	460.00
CAST-L	Caster modification for planters up to 54" or 96"L rectangles	860.00
SAP	Standard Accessory Pockets for FRP planters, GFRC planters or Wilshire steel planters	330.00
CAP	Custom Accessory Pockets for FRP planters, GFRC planters, Wilshire steel planters, planter walls, or built into Boulevard planters (size subject to limitation)	460.00
FLC-S	Fork Lift Channel for GFRC planters up to 36" sq. or round, or 48" rectangles, includes bottom reinforcement, per planter.	340.00
FLC-L	Fork Lift Channel for FRP planters up to 60" or 72" rectangles, includes bottom reinforcement, per planter	450.00
FLC-S-G	Fork Lift Channel for GFRC planters up to 36" sq. or round, or 48" rectangles, includes bottom reinforcement, per planter.	340.00
FLC-L-G	Fork Lift Channel for GFRC planters up to 60" or 72" rectangles, includes bottom reinforcement, per planter	450.00
PJC-S	Pallet Jack Channel for FRP planters up to 36" or 48" rectangles, includes bottom reinforcement, per planter	340.00
PJC-L	Pallet Jack Channel for FRP planters up to 60" or 72" rectangles, includes bottom reinforcement, per planter	440.00
PJC-S-G	Pallet Jack Channel for GFRC planters up to 36" or 48" rectangles, includes bottom reinforcement, per planter	340.00
PJC-L-G	Pallet Jack Channel for GFRC planters up to 60" or 72" rectangles, includes bottom reinforcement, per planter	440.00
TSEAL-S/TSEAL-S-G	TourneSeal waterproofing applied to interior of FRP or GFRC pots	150.00
TSEAL-L/TSEAL-L-G	TourneSeal waterproofing applied to interior of FRP or GFRC pots	230.00
BRF-S	3/4" plywood reinforcement cast into bottom of planters up to 36" or 60" rectangles, per planter	240.00
BRF-L	3/4" plywood reinforcement cast into bottom of planters up to 60" or 120" rectangles, per planter	340.00
BRF-AP	Anchor plate to spread load for bottom-reinforced planters (typically for Wally benches)	80.00
WBCC	FRP rectangle length modification	170.00
FGCHS	FRP height modification (less than 30" or 48"L rectangles)	230.00
FGCHL	FRP height modification (less than 54" or 96"L rectangles)	430.00
FCGCHS	GFRC height modification (for less than 48"L or less than 30"H or less than 30"W, applies to rectangles)	890.00
FCGCHL	GFRC height modification (for ≥48"L or ≥30"H or ≥30"W, applies to rectangles)	1250.00
FBT	False bottom cast into FRP planters	260.00
PSC	Custom paint color match (per color)	380.00
PSP	Custom Powder-coat color charge (per color)	1100.00
PSP-RAL	Non-Standard Powder-coat color (per color) - Selected from predetermined RAL color list from powder coat supplier. No powder-coated color sample provided.	410.00
PSP-GFRC	Custom GFRC color charge (per color) - Selected from predetermined color list from GFRC pigment supplier. Minimum project requirement of \$10,000.00	380.00
WBAC	Wilshire FRP rectangle angled length modification	430.00
TIE	Internal tie downs for round or square, 3 per round planter, 4 per square, one at each corner.	300.00

Boulevard Planters

Boulevard commercial-grade planters combine the durability of fiberglass with the warmth of wood. A fiberglass liner keeps moisture from soil, ground, and irrigation away from the cladding, extending the life and beauty of the wood surfaces.

CLADDING

When selecting cladding options for your planters, you should specify cladding to cover visible sides. Opting for less than 4-sided cladding will reduce your planter dimensions.

Pricing shown based on Thermally Modified Wood. When specifying, replace the 'X' with '-4', '-3', '-2', or '-1' to indicate choice of 4, 3, 2, or 1 sided cladding.

WOOD TOP CAPS

Adding matching wood caps to Boulevard planters > 18"L provides a 3.5" lip and a nicely finished edge. Note that you can also order your wood top caps 4-sided, 3-sided, 2-sided, or 1-sided to match your planter cladding.

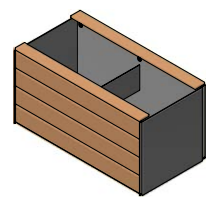

To view your wood options, please visit tournesol.com/materialsfinishes.

Kitsap Modular Planter Walls

The versatility of the Kitsap system makes nearly every planter wall project possible. It also makes it very difficult to include in a price list! We no longer price planter wall elements by the piece. Instead, we assess the layout, including the length, wall height, material, and configuration required to develop a price specifically for the project.

As a means of estimating the budget cost or to determine feasibility of an installation, we are pleased to provide approximate linear foot and unit costs for a variety of configurations.

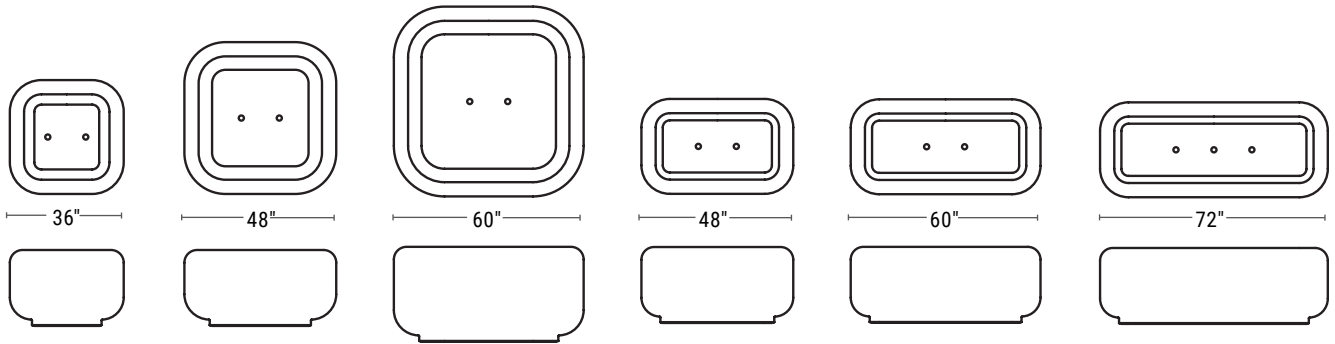

Pricing is approximate, and depends on the details of the application. Contact an advisor to discuss the project.

Montara

Inspired by the serene and majestic coastline of Northern California. Montara is a sculptural, modern take on a classic mid-century organic shape. The Montara Collection features versatile forms with rounded edges that work together seamlessly, elevating any commercial or residential space.

Wilshire Planters, FRP Hanging Box

Engineered for exterior installation. Designed for easy mounting and structural integrity. Use WBT template; then mark and drill holes. Next, fasten powder-coated steel brackets to the facade using customer-supplied anchors. Mounted brackets now hold the FRP planter in place, making it easy to fasten planters to brackets with included stainless steel mounting hardware.

Greenscreen®

Budget Pricing for Wall Mounted Trellis

Budgetary pricing: \$22 to \$26 per square foot for materials only, based on using 4' wide panels and standard adjustable mounting clips.

Excluded from budgetary pricing: installation cost, wall anchors, plant material, packaging, freight, tax, shop drawings, engineering fees, custom sizes, shapes, angle cuts, cutouts, colors, and enhanced powder-coating for coastal zone locations.

WALL BUDGETARY PRICING USING 4' WIDE PANELS AND MOUNTING CLIPS
(5132R OR 5132G):

4' wide panels and clips = \$22 – \$26 per square foot for materials only

Budget Pricing for Fencing

Budgetary pricing: based on a continuous run of 50 linear feet and standard posts. For fencing applications, posts can be a maximum of 52" on center utilizing a 4' wide panel in a vertical orientation, or posts can be a maximum of 100" on center using an 8' wide panel in a horizontal orientation.

Excluded from budgetary pricing: installation cost, plant materials, packaging, freight, tax, shop drawings, engineering fees, custom sizes, shapes, angle cuts, cutouts, colors, and enhanced powder-coating for coastal zone locations.

Note: Locations in hurricane zones will need appropriate posts and site-specific engineering increasing costs.

FENCING BUDGETARY PRICING WITH STANDARD POSTS PLACED AT 52" O.C.:

4' high screen with posts set at 52" on center = \$185 – \$200 per linear foot

6' high screen with posts set at 52" on center = \$220 – \$235 per linear foot

8' high screen with posts set at 52" on center = \$260 – \$275 per linear foot

FENCING BUDGETARY PRICING WITH STANDARD POSTS PLACED AT 100" O.C.:

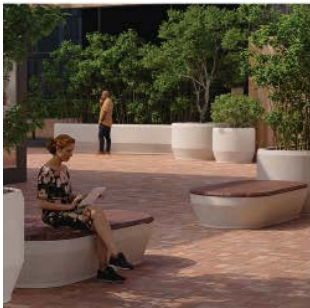

4' high screen with posts set at 100" on center = \$125 – \$140 per linear foot

6' high screen with posts set at 100" on center = \$175 – \$190 per linear foot

8' high screen with posts set at 100" on center = \$195 – \$210 per linear foot

Budgeting for Infill, Overhead, and Columns

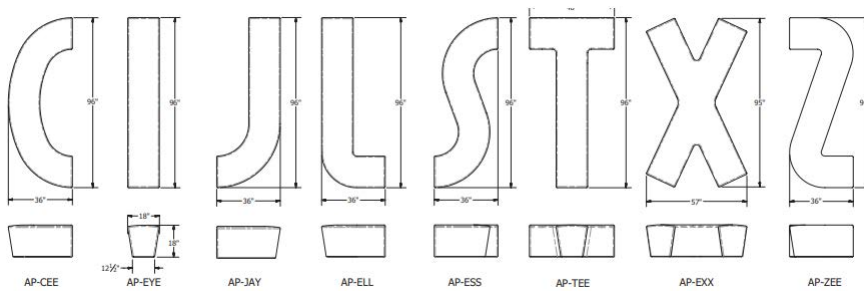

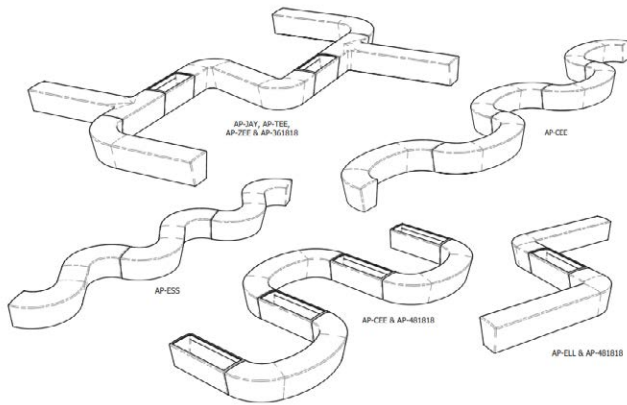

For Infill, Overhead, and Column pricing, please consult with one of our Advisors who can accommodate your project's specifications.

Commercial Fountains

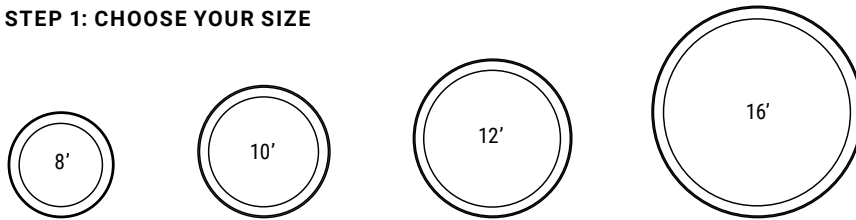

Commercial Fountains

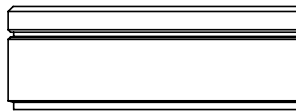

Tournesol's turnkey fountains include updated pumps, digitally controllable LED RGB lighting, drainage, and a programmable controller; additional accessories are available. See website or ask your salesperson for details.

LED Lighting: RGB controllable, sealed submersible in niche mount with extra cord length to allow extraction from water for service; 14V; UL listed.

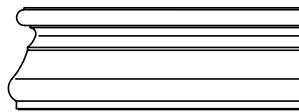

STEP 1: CHOOSE YOUR SIZE

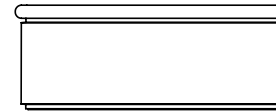

STEP 2: CHOOSE YOUR BASE PROFILE

Seattle

Barcelona

Roxbury

STEP 3: CHOOSE YOUR COLOR

Choose any of our GFRC colors. View colors at tournesol.com/materialsfinishes Note: Fountains only available in Sandblast texture/finish.

STEP 4: CHOOSE YOUR CENTER FEATURE, A OR B

A1 : ADD A BOWL

First select bowl style, then select number of tiers. Each bowl style has unique jets; see product details. Triple bowl not available for 8' fountain sizes.

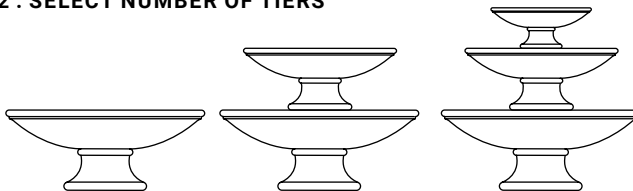

Crystal Bowl

Fluted

Plaza

A2 : SELECT NUMBER OF TIERS

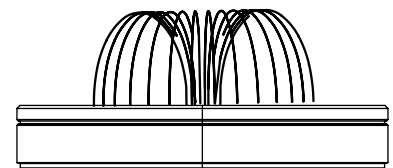

One Tier

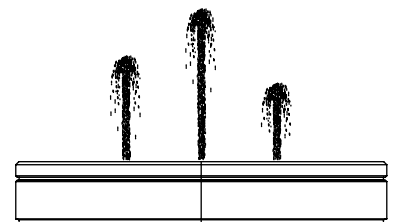

Two Tier

Three Tier

B : NO ADDED BOWL

Spray Ring

CWM Modular Container Irrigation

CWM Container Irrigation Modules are typically sold as complete systems. Each system includes one fill module, one sensor module, and secondary modules. Systems include tubing, hose clamps, overflow drainage adapter, and sealant. CWM Solo Modules are sold complete - assembly of fill tube is still required.

Drainage Control Products & Adapters

Our drainage control products can be used to pump out planters where no drainage can be tolerated, provide overflow for excess water, and control drainage in many applications. Designed to integrate with most Tournesol irrigation and pots, also used well with other planters.

PART NO.	DESCRIPTION	PLANTER	PRICE, EA.
DR1-1	Drainage System 1, includes pump-out tube, T and sleeve (no pipe loop)		70.00
DR1-2	Drainage System 1, includes pump-out tube, drainage pipe and sleeve	2' pots	100.00
DR1-3	Drainage System 1, includes pump-out tube, drainage pipe and sleeve	3' pots	110.00
DR1-4	Drainage System 1, includes pump-out tube, drainage pipe and sleeve	4' pots	160.00
DR1-5	Drainage System 1, includes pump-out tube, drainage pipe and sleeve	5' and 6' pots	190.00
DR3-36	Drainage System 3, for linear planters	36" linear planters	80.00
DR3-48	Drainage System 3, for linear planters,	48" linear planters	80.00
DR3-60	Drainage System 3, for linear planters	60" linear planters	90.00
DR3-72	Drainage System 3, for linear planters	72" linear planters	100.00
DR3-96	Drainage System 3, for linear planters	96" linear planters	110.00
DR3-120	Drainage System 3, for linear planters	120" linear planters	130.00
TA-050	1/2" slip x thread double-gasketed drainage adapter		48.00
TA-075	3/4" slip x thread double-gasketed drainage adapter		52.00
TA-100	1" slip x thread double-gasketed drainage adapter		56.00
TA-150	1-1/2" slip x thread double-gasketed drainage adapter		67.00
TA-200	2" slip x thread double-gasketed drainage adapter		82.00

Custom Planter Liners

Our custom leakproof liners are welded together from stress-relieved polypropylene sheets which don't rust, corrode, or rot over time.

Available in unique sizes, shapes, and configurations in small quantities without expensive tooling or engineering costs.

Talk to one of our sales team members to discuss which materials will best suit your next liner project!

Additional Information

Terms & Conditions

Commercial List Pricing in this pricelist is provided as a non-binding approximation of prices available to qualified wholesale accounts. Possession of this pricing does not constitute an offer to sale. Should Tournesol Siteworks, at its sole discretion, choose to accept an order based upon this pricelist, it shall do so in accordance with the terms and conditions established here unless specifically stated in writing by its authorized agent. Buyer acknowledges that Tournesol Siteworks is a material supplier, and is not a subcontractor unless assembly, installation or similar services are specifically offered in a written estimate.

Payment- 50% deposit with Release for Production, balance to be paid by check or credit card prior to shipment from Tournesol facility. American Express, Visa and Mastercard credit cards accepted. Credit card payments of over \$25,000 or for net accounts paid more than 10 days after delivery will subject to a 3% handling fee. Net terms (no retention) for the balance are available on qualified accounts, based on prior credit approval.

Sales Tax- Tournesol Siteworks collects sales taxes for AZ, CA, CO, FL, GA, HI, IL, IN, LA, MA, MD, MI, MN, NV, NJ, NC, OH, PA, SC, TN, TX, VA, WA, WI, and may add other locations as required by local law. Use tax in other states is exclusively the responsibility of the customer. Changes to delivery address may result in a tax different than originally estimated. Sales tax may be waived for those customers with valid resale licenses. Project sales tax waivers are only applicable if the customer's name appears on the waiver. Local sales tax is collected for will-call or collect orders, unless the customer provides a bill-of-lading with a non-taxable delivery address.

Cancellations & Returns- Custom orders may not be canceled, nor product returned. Cancellations on project orders larger than \$10,000 are subject to stage of manufacture, and will be assessed the larger of a 25% cancellation fee or percentage of project completion. Products manufactured to order may not be returned. Returned merchandise must be in new or like-new condition, in original packaging. Returns will not be accepted past 90 days after delivery. All exchanges and returns require Returned Material Authorization (RMA) number from factory. Return freight must be prepaid, and a restocking fee will be charged. Restocking fee will be assessed by Tournesol Siteworks, but will be at least 25%. Restocking fee may be waived on exchanges, at the company's discretion. Returns not accompanied by a RMA number will be refused by shipping and returned at the customer's cost.

Confirmations- All orders over \$1000 require purchase order. Order confirmations, expected shipping dates, and other critical information will be confirmed to an email address provided by client. Tournesol Siteworks will fabricate and ship orders based upon confirmed shipping dates. Shipping dates are approximate and are based upon prompt receipt from Buyer of all necessary information, releases, and approvals. Please notify us in writing should the requested shipping date change. Unless provided with adequate notice, shipments subject to customer-requested delays will be invoiced on confirmed shipping date and may be subject to storage charges. Storage charges will be charged monthly, and must be prepaid by credit card on the first of each month.

Force Majeur- In no event will Tournesol Siteworks be liable for damages of any kind arising out of delay or non-delivery, due to causes beyond its reasonable control including, but not limited to, acts of God, acts of civil or military authority, war, riots, fire, explosion, earthquake, flood, strike, lockout, injunction, accident, breakage of machinery or apparatus, or inability to obtain fuel, power, raw materials, labor, containers or transportation facilities. Tournesol Siteworks will coordinate and make every effort to notify the client of any delivery issues.

Estimates- Unless otherwise noted, all written estimates are valid for 60 days, and should be updated after this period. Orders that remain unreleased 90 days after receipt may be subject to repricing. All prices subject to change without notice.

Freight - All products are shipped freight prepaid and billed. All freight will be shipped FOB from facility of manufacture: Union City, CA, El Paso, TX, or Port Orchard, WA. Any unusual freight requirements must be indicated for freight estimate to be valid. Requests for liftgate service, delivery appointments, driver assistance or other additional services must be made prior to shipping. All freight estimates include a surcharge for packaging and handling. Tournesol Siteworks reserves the right to add a 2% packaging & handling charge for all freight-prearranged or will-call orders. Will-call orders produced in a different facility will be subject to freight charges between facilities. Split shipments will typically increase the freight charges. Freight splits require written approval prior to releasing the shipment.

Freight Damage Claims- Claims for shipping damages must be made against the carrier on all products shipped FOB shipping point. The customer must inspect all shipments for damage before signing for delivery. Damaged product must be noted on bill of lading before the driver leaves, and reported to Tournesol Siteworks within 24hrs. If it isn't noted on the bill of lading, the freight carrier won't honor claims for damages.

Packaging Damage Claims- Shipments must be opened and the contents inspected within 5 days from delivery. Unopened pallets must be stored indoors or in dry, protected space. Packaging damage claims must be made in writing, and images provided to verify condition. Typical packaging damage would include adhesive marks left on product from tape, foam wrap, rub marks, and the like. Tournesol Siteworks is not liable for packaging damage reported to the company after this period. Long-term storage of products in shipping packaging may result in incidental damage to the product.

Lead Time Expectations & Information

- All products are made-to-order.
- Lead times start from the time a project is released for production. Release requires a deposit and submittal approval.
- Custom projects or products with standard options include a development phase, which adds to your lead time. *See chart below.*
- A Project Advisor will provide you with a confirmed timeline for your project, when the order is released for production.
- Please notify us of critical deadlines before placing your order. Partial shipments and/or expediting may be available if required.

Tournesol Siteworks Three-Year Limited Warranty

Tournesol Siteworks LLC warrants to the initial purchaser of its products that they will repair or replace product that contains a defect in material or workmanship for a period of three years from the date it is delivered to the initial purchaser.

This limited warranty does not include those parts which fall under standard regular maintenance, including but not limited to parts which are subject to periodic replacement. Timers, controls, pumps, and lamps delivered with turnkey fountains are covered for a period of one year from the date they are delivered to the initial purchaser. The warranty does not apply to conditions resulting from misuse, abuse, failure to follow directions for use, unauthorized modifications, neglect, accident or other hazard or the like. Defects in wood materials does not include naturally occurring weathering of wood, including bleaching, checking, twisting or other wood movement. Contamination by non-destroying organisms such as surface mold, mildew or algae is not regarded as damage covered by the warranty. Failure of Greenscreen trellis product is defined as structural failure of the wire or sufficient incidents in any panel that would result in the panel's inability to perform in a structural or safe manner under the intended application and use. The remedy under this warranty is limited to repair or replacement, at Tournesol Siteworks' option, of the defective parts of the warranted product. Repair or replacement of a part does not extend the warranty beyond the initial warranty period.

This is the only written warranty applicable to the product. The duration of the implied warranty on the product is limited to the duration of this express warranty. In no event shall Tournesol Siteworks be liable for any incidental or consequential damages. Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

Materials & Finishes

GFRC - Lightweight Concrete

Our GFRC products are cast in our plant in Juarez, Mexico. GFRC is glass fiber reinforced concrete. It's made by combining a mixture of fine sand, cement, polymer, water, other admixtures, and alkali-resistant glass fibers.

FRP - Fiberglass

Our commercial-grade FRP planters are highly durable, last longer than plastic, and will endure in most winter climates. Our labor-intensive process results in a uniform, consistent quality product. Available in three textures; Smooth, Rough Stucco, and Orange Peel.

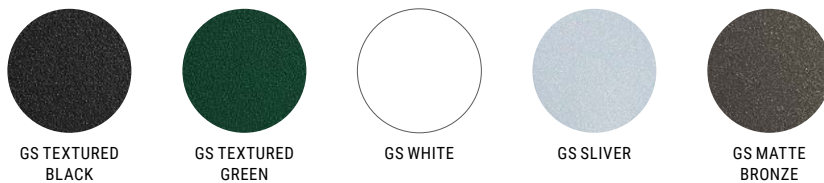

Materials & Finishes

Powder-Coat

Our aluminum and mild steel products receive a zinc-rich primer before powder-coating.

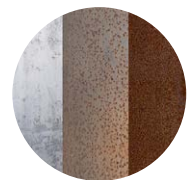

Greenscreen® Trellis

Weathering Steel

A588 and A606 grade steel, shipped un-weathered with the natural mill scale finish. Although the initial rust patina develops within weeks, complete rusting may take years to advance.

Wood

Recycled Plastic
